ANURAG

AI Full Stack Developer | GenAI | Python | JavaScript

Pan-India (+91) 6376818103 anurag.raj.8658@gmail.com LinkedIn

Professional Summary

Dynamic Full Stack / AI / GenAI Developer with 4 years of experience building scalable backend with **FastAPI and Node.js**, frontends with **React.js, Next.js and React-Native**. Experienced with integrating **LLMs, RAG, Agentic AI and Chatbots** to build intelligent applications. Passionate about writing clean, efficient code and solving real-world problems.

Technical Skills

Languages and Database: Python, JavaScript, TypeScript, MySQL, PostgreSQL, SQLite, Redis, Vector DB
Libraries / Frameworks / Others: FastAPI, Node.js, React.js, React Native, Data Structures, Algorithms, System Design (HLD), Microservices, caching, Web-Sockets, Web Scraping, CI-CD, AWS (S3 and Lambda)
AI Integration: GenAI, LLM's, RAG, Chat-Bot, Langchain, AI-Agents
Misc: Agile, Android Studio, Xcode, Debugging, Testing, Offline-first, AI-Automation, Git

Experience

View All Projects (***Link***)

CMS Computers Pvt. Ltd. (Client - DIC) Dec 2024 - Present
Full Stack Developer *Noida, India*

- Implemented **AI automation** at the high-impact stages of the Rajmarg Pravesh NOC workflow (**MoRTH**), using **LLMs, RAG and agentic AI** to replace manual document checks, clarification writing and report drafting, which streamlined the end-to-end process and sped up application turnaround.
- Designed and developed secure, **REST APIs** and microservices in Node.js, FastAPI with **RBAC**, and **5+ third-party** API integrations for **Datalake 3.0 (NHAI)**, serving government-scale data infrastructure.
- Built a chatbot using OpenAI models with **LangChain** and FastAPI, trained on government documents and protocols to help users perform operations smoothly and efficiently.
- Developed a full end-to-end cross-platform mobile application for field inspection workflows using **React Native.**
- Built an adaptive **image upload pipeline** to **AWS S3** with multi-resolution compression and quality tiering, ensuring seamless media delivery across low-bandwidth and high-bandwidth network conditions.

The Techtonic Feb 2024 – Dec 2024
Jr. Full Stack Developer *Chandigarh, India*

- Engineered a full-stack e-commerce platform from scratch for ONDC buyers using **Node.js, React.js and MySQL**.
- Built an AI-powered report summarizer using LLMs (GPT-4o-mini) and Flask (Python), deployed on **AWS Lambda.**
- Implemented **real-time payment processing** and order status updates via **WebSockets and webhooks**.
- Migrated 2+ React.js applications to **TanStack Query**, improving performance and development speed by **30%**.

Essence Web Technologies Feb 2023 – Jan 2024
Web Developer *Gurgaon, India*

- Developed a **full-stack CRM application** using React.js, Node.js, and MongoDB, improving client data management and operational workflows.
- Configured and deployed a **Shopify** storefront, enabling end-to-end online sales and product management.
- Built an automated **web scraping** pipeline using Python, extracting **3,000+** packers and movers business records from multiple sources nationwide.
- Designed and delivered **30+** static websites using **HTML, CSS, Bootstrap, and Tailwind** for local business portfolios.

Internships & Certifications

Industry training in Data Science (View) Jan 2025 – June 2025
Project - Document Analysis using Large Language Models (LLM's) *Sabudh Foundation*

Training in Python Full Stack Development Aug 2022 – Feb 2023
Jspiders *Bengaluru, India*

Education

Techno Main Saltlake, MAKAUT, Kolkata 2018 – 2022
Bachelor of Technology in Electronics and Communication Engineering (8.14 CGPA) *Kolkata, West-Bengal*
